

# VOTE FOR ME

My goal is to give back by helping the district, divisions, areas, clubs, and their members reach their potential goals of improving their communications and more. By helping them understand the true benefit of becoming part of Toastmasters and encouraging them to take action by fostering a support environment from the division level down to the club level. The bottom line is that I will help them understand why they joined Toastmasters and see the results in real time. I am confident that with clear and timely communication and structures, it will be successful as a team. I truly appreciate your vote for me as a Division G Director.
